You're going to catch a cold, Mr. Gourry.
I'm afraid it's quite a ways to the nearest city yet...

Then we'll have to set up camp here, I guess.

It's Mirurin Studios, abuser of everything Slayers that you know and love. (hee) Alas, not everything went the way I'd planned... I didn't have enough time to make anything else for the earthquake charity before time was up. (I wanted a hug pillow, or a XXX keyholder...) So here you have a book like all the others before it... With one exception! The “Grey-Zone” comics! I'm just glad I got them done on paper, no matter what the form. ♥

Hopefully next time, we'll finally get to see Lina do the conga! What adorable antics will Sue and Soujurou be up to next? And when will the low-brow jokes ever stop?!
HARA-HARA PLANNING!

HUUH?!

WHY AM I...?
Cheer up, Mr. Zelqadis...
So they did, mistress.

So they finally did the kitty cat...
